

# BEN MCKEOWN

JUNIOR\GRADUATE FRONT END WEB DEVELOPER

## CONTACT DETAILS

Meadow Bank House, Priors Marston, Southam, Warwickshire CV47 7RN  
M: 07584 662062  
Email: benmckeown1998@gmail.com  
D.O.B: 28/03/1998

## ABOUT ME

I am a sociable, young individual who wishes to gain experience and additional skills from a graduate job. I have a massive passion for computing/coding (particularly web development) and spend a reasonable amount of time using different technological devices ( computer, mobile phone etc) and this results in me having a good amount of knowledge within this department. I also have an interest within graphic design which compliments well with keeping a good eye for detail within styling and layout of coding.

## EDUCATION AND QUALIFICATIONS

### 2009-2014 Southam College GCSE

Maths	A*
English Literature	B
English Language	B
Double Science	B
Graphics	B
IT	Distinction
Geography	B
Life Skills	B
Religious Studies	B
German	C

### 2014-2016 Southam College A Levels

Maths (AS Level)	D
IT	Distinction*
Product Design	D
Graphics	B

### University

Graduated from the University of Northampton Bsc Computing with a **2.1 Degree** (Software Engineering) (2016-2019)

## WORK EXPERIENCE

### 2015-2016 Unit Clean

I worked in small teams to complete different tasks around the school facilities. This required a suitable amount of communication and team work to complete the tasks quickly.

I worked in different environments (woodwork, toilets, general classrooms etc.) which meant I had to adapt to new areas quickly and learn how to use different equipment to clean these facilities.

### 2017 Deliveroo

I was required to complete deliveries on time and in good fashion, which shows an element of punctuality.

I had to speak with employees of different restaurants and confirm that orders were correct and packaged properly for the customers, this shows conversational and management skills.

Deliveroo is a self-employed company; this means that you're your own boss. I had to be self-motivated, punctual and a hard worker.

### 2018-Hellidon Lakes- Conference and Events

I was required to organise and set up multiple different events ranging from weddings to dinners and formal presentations. This shows a key element of good team working skills and communication as I was enforced to cooperate with other peers to set up these events quickly and efficiently.

Alongside this I have had several shifts where I was asked to waiter several events including large scale weddings. This meant I would need to be watchful of the time and ensure the event would run smoothly.

### 2018-2019-Hellidon Lakes-Food and Beverage

I was required to take responsibility in taking orders from customers coming into the restaurant and bar area. This shows a good element of being able to interact with new people and create a good relationship between me and the customer.

Shift patterns were varied during my time in food and beverage which shows that I can easily work on flexible times, I also offered to do overtime on multiple occasions which shows that I was ambitious to work for the company and wanted to make a change whilst I was there.

### 2019-2020 October- Hellidon Lakes- Assistant Green keeper

This was my first full time position within a job, as I had to start early hours (5:00-6:00 am) I had to ensure I was punctual to make sure that I completed all the tasks set out for the day. On multiple days during my time as an assistant green keeper I was set out multiple tasks, such as raking bunkers and mowing. This showed that I needed to work towards a deadline everyday to ensure that the golf course was in top condition and as a result of this was happy and satisfied golfers.

## CORE SKILLS

- Self motivated
- Good Verbal Communication
- Report Analysis
- Project Management
- Well Organised
- Fast Learner
- Punctual
- Good Problem Solver

## CODING / KEY SKILLS

- HTML
- CSS
- Javascript
- PHP
- Materialize
- Jquery
- Photoshop
- Bootstrap
- SQL
- React

## Interests

**Squash** - I was the President of the squash club at the University of Northampton, this allows me to develop my leadership and decision making skills many problems will arise while my time being in this role. Also, I was the treasurer in the previous year; this allowed me to experience the role of dealing with a large sum of money and be able to manage this to budget.

**Football**- Ever since growing up I have always had a massive passion for football, I've taken part in several different teams while at University and local teams around the Warwickshire area.

**Computing** - I have always had a passion within the computing industry, this means I am able to solve a lot of problems quickly. I am well experienced within the coding department and have been doing so for around 3 years now.(Both at university and in my spare time)

**Graphic design** - I've been very into graphic design since taking it within my Years at Southam College whilst doing my GCSEs. It's more of a hobby now as I am focusing more on computing, but am looking to combine these two in the near future (web development).
